It makes short work of re-ticketing and gives staff more time to help customers that enhances your service image. Using integrated data for on the spot labeling reduces errors and saves time on redos. The long-lasting lithium ion battery maximizes productivity. The Paxar Sierra Sport2 generates crisp bar codes, alpha-numerics and graphics wherever you need printed labels and tags. It makes short work of in-store re-ticketing jobs such as markdowns, returns, exchanges, and store transfers.

Taking the printer to the product maximizes employee productivity and customer satisfaction on the sales floor, reduces errors at checkout and saves capital investment on back room printers.

The Paxar Sierra Sport2 printer can be carried with complete comfort by hand, waist or shoulder straps. Versatile power options include rechargeable lithium ion battery, AC adapter, and RF link option for wireless connection.

Applications:

- Retail Pricemarking and Shelf Labeling
- Industrial Product ID and Bin Marking

Features:

- Portable 2.0" (51 mm) wide printing solution.
- Easiest to use
- Rugged design includes protective boot and feet.
- Prints crisp bar codes - all popular symbologies - and human-readable data.
- Fast 3" per second print speed.
- Large flash memory for fonts and graphics.
